

Quoting the Word of the Lord given to Jerry Savelle, “. . .2017 will be a year that the faithful shall flourish. . . and it will be days of heaven upon the earth.”

What does it mean to flourish? To grow well. To thrive. To prosper. To be in a period of highest productivity, excellence and influence.

This year is a year for you and I to flourish. To thrive. To prosper. To enter into a period of highest productivity, excellence and influence, corporately and personally.

This word is contingent. It is for the faithful. What does it mean to be faithful? It means to be diligent, responsible, conscientious, devoted to Him and to His ways. To be consistent with Truth, not on again, off again. It means to be full of faith.

I've got some intentions for you this year, says the Lord. I have some things I want to impart to you and reveal to you where your goals and visions are concerned. I want you to flourish personally and corporately. I want you to thrive and prosper. I want you to enter a period of highest productivity, excellence and influence!
